

Gabriel Bocaletti

Product Designer and Illustrator

Product designer sitting somewhere between design and engineering, turning technical systems and hardware behaviors into products people can actually use simplifying low-level mechanics into high-level features. Not a developer, but comfortable around technical systems.

Work Experience

The last 5+ years were spent working for [Spartan Camera](#). Working across support, QA, and product design to refine skills strictly through hands-on work.

Product Designer [2023 - Present]

- Software and hardware features taken from concept to production.
- Ideas translated into interface designs, feature logic, technical specs, and clear handoffs for engineering teams.

QA Assistant [2022 - 2023]

- Functional testing performed across camera hardware, firmware, and mobile app releases.
- Bugs reported, fixes verified, and new releases prepped for users.

Support Representative [2021 - 2022]

- Technical support provided across the mobile app, web portal, and physical hardware.
 - User issues troubleshoot to pinpoint and escalate problems across both software and physical products.
-

Education

High School Diploma · 2019
Colegio Bilingüe Americano - Guatemala, Guatemala
